4 Bedroom, 4.00 Bathroom, 1,225 sqft

Residential on 0.08 Acres

Copperfield, Calgary, Alberta

Pride of ownership is evident in this fully developed 2-storey home, tucked away on a quiet cul-de-sac. Over the past five years, the owners have completed key updates, including new shingles and full siding replacement (2021), LUX windows throughout with triple-pane glass in the living room and primary bedroom (2021), and a high-efficiency furnace (2023), hot water tank (2023), and central air conditioner (2023). Both the front and back composite decks have also been replaced.

The main floor features an open-concept layout with a bright living room, dining space, and kitchen. The kitchen includes epoxy-coated countertops, an updated backsplash, a new hood fan microwave, and a large window above the silgranit sink.

Upstairs you'll find three well-sized bedrooms, including a primary with a walk-in closet and 4-piece ensuite. The basement is fully finished with permits and offers a large rec room, a fourth bedroom, and a 3-piece bathroom.

The backyard is spacious and includes flower beds and a fun sandbox area with a beach-style vibe. There's also room behind the fence to build a future double detached garage.

A solid, well-cared-for property in a great location—ready for its next chapter.
